

Acrônimos e Abreviaturas

AAA - Authorization, Authentication e Accounting;	LAN – Local Area Network;	SNMP – Simple Network Management Protocol;
ACL - Access Control List;	LDAP – Lightweight Directory Access Protocol;	SRP – Switch Routing Process;
ACS – Instância do Serviço AutoCadastro;	LDP – Label Distribution Protocol;	SSM – Specific Source Mode;
API - Application Programming Interface;	LLD – Low Level Design;	SWC – Switch de Concentração;
AS - Application Server;	LPU – Line Proces Unit;	SWD – Switch de Distribuição;
ASA – Firewall Cisco;	MIB – Manage Information Base;	TC – Topology Change;
BGP - Border Gateway Protocol;	MPLS – Multiprotocol Label Switching;	VLAN – Virtual Local Area Network;
BRAS – Broadband Remote Access Server;	MPU – Main Processor Unit;	VPN – Virtual Private Network;
CANG – Centro de Acesso Nova Geração;	MSCG – Multi service Gateway;	WPP – Instância do Portal Pré-Pago;
CDR - Collected Data Record;	MQ Series – IBM Queue Platform;	WS – Web Server;
CF - Compact Flash;	NAS – Network Access Server;	WSC – Instância do Portal Vivo Speedyzone;
CFI – CDR File Importer;	NAS-IP – Radius asignado al usuario en el router de acceso;	WSP – Instancia do Serviço Pre-Pago com ENIP;
COA – Change of Authorization;	NAS-PORT – Radius asignado al usuario en el router de acceso;	
COPS – Common Open Policy Service;	NAT – Network Address Translation;	
CSM – Content Switch Module (Load Balance Module Cisco);	NIS-IP – Nó Implementador de Serviços IP;	
DSLAM – Digital Subscriber Line Access Multiplexer;	ONT – Optical Network Terminal	
EJB – Enterprise Java Beans;	PPPoE – Point-to-Point Protocol over Ethernet;	
FTP – File Transfer Protocol;	PSA – Plataforma de Serviços de Acesso;	
GPON – Gigabit-capable Passive Optical Network	PSSBA – Plataforma de Selección de Servicios Banca Ancha;	
HA – High Ability;	PVID – Port Virtual LAN ID;	
HL – Hierarchical Layer	QinQ – Queue in Queue	
HGU – Home Gateway Unit	RADIUS – Remote Authentication Dial In User Service;	
HTTP – Hyper Text Transfer Protocol;	PRR – PSA Radius Replicator;	
ISIS – Intermediate System-to-Intermediate System;	PRV – PSA Provision;	
ISP – Internet Service Provider;	SCU ou ENIP - Plataforma de Pré-Pago;	
IST – Instância de Serviços de Terceiros;	SFU –Switching and Fabric Unit;	
JDBC – Java Database Connectivity;	SGUT – Sistema de Gestão de Usuários e Tarificação;	
JSP – Java Server Pages;
